

# BBC Careers Roadshow

As part of our PD day, we were lucky to have BBC Bitesize Careers Roadshow in school to talk all things careers.

They brought with them some amazing panellists who were able to talk about their current jobs and the skills needed for them.

We welcomed; Josh Oliverio (Senior Producer, Climax Studios), Riddoch (BBC Radio Solent, Journalist) and Aga Sawicka (Cardiology Technician).

It was a truly inspiring session. The presenter and producer Ross Fiddes commented on the engagement of Park students, the quality of their questions and the impressive nature of mutual respect shown between students as they interrogated the panel.

much more than just a school
