IT Manager

Salary - F Grade – £40,643 to £45,077 per annum
37 hours per week, 52 weeks per annum
(Requests for flexibility on hours and/or weeks worked will be considered)
Benefits include 25 days' holiday per annum plus bank holidays, Local Government Pension Scheme

We are looking for an IT Manager to support the school networks, ensuring the needs of the staff and students are met in terms of IT support.

The postholder will be dealing with hardware, software and network challenges on a daily basis, operating as the expert within the school on all IT issues.

Essential skills include technical IT skills and network experience, with demonstrable hardware and software knowledge. You will need to be able to work effectively and relatively independently without supervision and provide advice to management, colleagues and students. Experience working in an educational establishment is preferred, but not a prerequisite.

Our infrastructure includes Microsoft Hyper-V, Azure, Google and AWS cloud services, Acronis Cyber Protect, BullWall and Heimdal for advanced threat protection, HPE Aruba CX switching, TP-Link Omada wireless, WatchGuard firewall, Lightspeed filtering, JAMF School for Apple device management, SIMS and ClassCharts for management information, 3CX telephony, and Keeper password management.

Closing date: 20 January 2026
